

# Your hygiene journey actually starts right AT YOUR DOOR STEP

**80%** 

of dust and dirt is brought into offices by shoes<sup>1</sup>

**12x**

During rainy season, the amount of dirt and debris can multiply up to 12 times<sup>2</sup>

**42%** 

of people judge cleanliness base on floor appearance<sup>4</sup>

 **35%**

Traditional mat cleaning methods reduce around 35% of dust<sup>1</sup>

**10%** 

Most vacuum cleaners can only remove 10% of dust from floors<sup>3</sup>

**35%**

of workplace injuries are due to slips, trips and falls<sup>5</sup>

## Why place floor mats at ENTRANCES

Floor mats are not meant for entrances only.  
They can also be used on  
**WET SURFACES AND TO REDUCE FATIGUE**

**WASHROOMS**  
with wet surfaces

**KITCHENS**  
and pantries with  
slippery surfaces

**PRODUCTION LINES,**  
cashiers and bar counters that  
require long hours of standing
